- Seamless Data Synchronization
- Offline Capabilities with Customized Sync
- User Management and SSO
- Image Capture
- PDF Generator
- AI-assisted Chat
- Scheduling and Appointment Management
- Custom Forms and Workflows
- Signature Capture
- Inventory and Service Line Management
- Time Capture
- PO Management
- Payment Processing
- Connections to Google Maps and other web services

Why Jigx?

- ✓ **Mobile Expertise** - We know what it takes to deliver a compelling mobile experience that remote workers will love.
- ✓ **Powerful Sales Tools** - We encourage each partner to demo the solution. We give you the tools you need to win over your customers.
- ✓ **Fast Development** - Your customer needs something unique? No problem. No long release cycles or waiting for new features.
- ✓ **Dedicated Partnership Support** - We work hand-in-hand to ensure we win deals together and deliver the best mobile solution for Acumatica. Your customers deserve the best, and we help you get there.
