Industry editions covered under the FastTrack Deployment are General Business, Distribution, and Construction, with more to come soon.

POWERFUL AND REPEATABLE FRAMEWORK

Get running on a single, integrated cloud solution to manage your entire business within 90 days. Acumatica's FastTrack Deployment leverages best practices-based templates and configuration checklists that reduce the need for lengthy requirements gathering, process definition, and customization. This approach provides core business deployment in 90 days or less. Data migration tools streamline the transfer of data to Acumatica. Pre-packaged business content, including online learning, speeds up training and implementation and increases user adoption.

FASTTRACK DEPLOYMENT IS RIGHT FOR YOU IF:

- Your company needs an ERP system but finds the options complex and costly.
- You need a solution that supports your end-to-end business processes seamlessly and without complex integrations.
- You are worried about the risks and unknowns surrounding software acquisition and deployment.
- You have limited time, resources, and expertise to evaluate the many hardware choices needed to run the software.
- You are concerned that long deployment times will drive up costs and reduce your calculated ROI.

"The implementation was great. The team was knowledgeable and very helpful throughout the process."

– Nikki Alsop, Controller, Vaughn Bay Construction
