Product Direction

“Acumatica makes day-to-day tasks easy and manageable. From the executive level down to the associate level, everyone can get what they need quickly and easily.”

Joel S.
Ex-Quickbooks User

Performance & Reliability

“Satisfied small business customer. Best features include ease of use and the ability to get users up to speed quickly. I also like the pricing model where we aren't penalized for users that might not use the system as frequently as our power users.”

Rocky P.
Ex-Quickbooks User
